

STALKINGTON **T**ANGUS RANCH

5TH ANNUAL PRODUCTION SALE

FRIDAY, FEBRUARY 12, 2016

**1:30PM • AT THE RANCH
BELFIELD, NORTH DAKOTA**

**Shane and Amanda Talkington
Home 701-575-4159 • Shane's Cell 701-290-7222
www.talkingtonangusranch.com**

Fellow Cattlemen,

It is with great excitement that we invite you to our 5th Annual Bull Sale. We are extremely grateful not only for the past investment in our genetic program, but also for the opportunity to work with you going forward.

Our main focus at Talkington Angus Ranch is to produce the kind of cattle that will help the commercial cattlemen reach their goals and be successful. To do this we realize we have to have the utmost discipline when it comes to genetic selection, but it is more than that. We also know that these bulls have to be developed with longevity in mind. Before we bought our first registered cattle 18 years ago, we were 4th generation commercial cattlemen and still are. The cows are managed exactly the same, whether they are registered or commercial. We feel this is a great asset to our purebred operation. We know what traits are important to the commercial cattlemen in our region. These bulls may not be the heaviest on sale day or have the most extreme EPD's. They do however, come from a cow herd managed strictly on forage and challenged with a tight breeding season, culled heavily for feet, udders, disposition, fleshing ability, and fertility. These bulls are not creep fed, get plenty of exercise, and are fed to last.

All the bulls will once again have a genomic profile done, which will be incorporated into the EPD's, refer to page 16 for more details. Along with the profile, every bull has been verified for parentage, which insures you that every bull you buy is who he is supposed to be.

We feel that this is the deepest set of bulls in terms of quality that we have produced to date and are very excited to have you stop by for a visit and go through the bull pen.

Sincerely,
Share, Ananda,
Abby, Hadley, and Cade Talkington

TALKINGTON ANGUS RANCH

SALE DAY PHONE NUMBERS

Shane's Cell:
701-290-7222
or
Amanda's Cell:
701-290-5030

VIDEOS

Videos of all the bulls are available at www.talkingtonangusranch.com.

If you are unable to view these videos on the web, please contact us and we will send you a copy of the videos.

LIABILITY

All persons who attend the sale do so at their own risk and Talkington Angus Ranch assumes no liability, legal or otherwise, for any accidents which may occur.

LUNCH

There will be a complimentary lunch provided on sale day.

SALE LOCATION

We will hold the sale and lunch at our heated shop 2 miles NW of Belfield. The bulls will be penned there that morning, and will be available for viewing by 10:00 a.m.

DIRECTIONS

From the junction of I-94 and Highway 85 (Exit 42): ½ mile north to 35th Street, 1 ½ miles west, on the north side of the road.

HEALTH PROGRAM

The bulls have been poured with Cydectin and drenched with Safeguard. They will be vaccinated with Fusogard for foot rot and receive Preg-guard 10 prior to delivery.

FEEDING AND DELIVERY

The bulls will be fed until April 1st at no cost. We will begin delivering the bulls at this time free of charge up to 500 miles. Beyond 500 miles, we will help coordinate delivery to get the bulls to you as economically as possible.

SEMEN EVALUATION

All bulls will pass a breeding soundness exam performed by Wibaux Veterinary Clinic prior to delivery.

TERMS OF PAYMENT

Buyers will have the option to pay for your bull or bulls in full on sale day or 50% on sale day and the balance at the time of delivery.

MARKING IRON

Soo Line Motive 9016

REG: AAA 16568189

Soo Line Motive is proving himself to be the outcross sire we were looking for. The Motive progeny are well made and extremely nice fronted with the breed character we admire. He possesses the kind of muscle pattern that is rare for a bull with a birth weight as low as his. His progeny are uniform, correct, broody, and stand on excellent feet. Motive's dam is a model Angus cow with a perfect udder, moderate frame, and impressive breed character.

CED	BW	WW	YW	YH	SC	Doc	Milk	Marb	RE	\$W	\$B
+13	+1	+50	+89	+1	-.13	+11	+26	+.47	+.56	+52.29	+93.37

Connealy Capitalist 028

REG: AAA 16752262

Capitalist progeny excel for mass, muscle, and base width, especially when you consider his level of calving ease. His progeny are thick made and attractive. We calved our first set of Capitalist daughters this past spring and they did not disappoint. His daughters are broody young cows with massive rib and well-attached udders with small teats.

ANGUS RANCH

REFERENCE SIRE

Ellingson True Grit 3181

REG: AAA 17617293

True Grit was our selection at the 2014 Ellingson Angus Sale. True Grit's dam is a powerful cow who is well proven. Maternal siblings to True Grit include the Genex sire Dominance and the high selling female at the 2015 Ellingson sale. True Grit provides a high growth, outcross option for our herd. He also does not sacrifice carcass quality as he was the high IMF bull of his calf crop.

-8	+2.9	+64	+114	+7	+1.11	+7	+21	+95	+47	+60.94	+154.75

SAT Revival 210

REG: AAA 17329930

The first calf crop by Revival has exceeded expectations. Revival's initial set of progeny has solidified the fact that he is a consistent calving ease bull. The Revival calves are moderate framed, big middled cattle. Revival's dam is a perfect uddered cow with good feet and is moderate in her size. She records progeny ratios of 4@91 for birth weight and 4@104 for weaning weight.

CED	BW	WW	YW	YH	SC	Doc	Milk	Marb	RE	\$W	\$B

Limestone Made Right W935

REG: AAA 16720850

This Lookout son is a maternal brother to the popular OCC Paxton. His progeny are moderate framed, high volume, and powerful. Made Right excels for passing on muscle and fleshing ability. Made Right also ranks high for \$EN and Rib Eye Area.

CED	BW	WW	YW	YH	SC	Doc	Milk	Marb	RE	\$W	\$B

- Maternally bred bull whose pedigree combines Game Day, Right Time, Upward, and Image Maker.

Driving the science of better breeding

There's little room for error in the cattle business. Producers need the most advanced information to make smart selection decisions, and Angus Genetics Inc. (AGI) provides it through genomic-enhanced expected progeny differences (GE-EPDs).

GE-EPDs have become the industry standard for herd improvement, building on decades of science-backed genetic evaluation tools originated and maintained through the American Angus Association®, home to the largest and ever-growing single-breed beef cattle database.

EPDs that traditionally contained all pedigree, performance and progeny information now also include results from available genomic, or DNA, tests. Breeders who use genomic technology give buyers access to AGI-generated GE-EPDs that provide:

Increased predictability and decreased risk for young and unproven animals due to enhanced accuracy of EPDs

Better characterization of genetics for difficult-to-measure performance traits (such as carcass traits, maternal traits and feed efficiency)

The ability to make more rapid progress for traits that are important to you, due to:

- more accurate selection
- easier identification of genetic outliers
- the ability to propagate young animals with confidence earlier in their lives

In fact, GE-EPDs on unproven animals have the same amount of accuracy as if they had recorded 8-20 calves, depending on the trait. That's valuable insight, offered regularly through the breed's weekly national cattle evaluation.

Trait	Progeny Equivalent	Trait	Progeny Equivalent
Calving Ease Direct	21	Docility	12
Birth Weight	13	Heifer Pregnancy	10
Weaning Weight	19	Mature Weight	13
Yearling Weight	22	Carcass Weight	10
Milk	14	Carcass Marbling	9
Yearling Height	11	Carcass Rib	11
Yearling Scrotal	14	Carcass Fat	12
Dry Matter Intake	18		

How do you know if EPDs are genomic-enhanced?

Ask your breeder, refer to the registration paper, or look for the AGI GE-EPD logo or those of partnering labs Zoetis (HD50K, i50K) or GeneSeek (GGP-HD, GGP-LD). These images indicate animals for which low-density or high-density genomic testing has been conducted and incorporated by AGI into GE-EPDs.
