

TALKINGTON ANGUS RANCH

9TH ANNUAL PRODUCTION SALE

FRIDAY, FEBRUARY 14, 2020

**1:30PM • AT THE RANCH
BELFIELD, NORTH DAKOTA**

**Shane and Amanda Talkington
Home 701-575-4159 • Shane's Cell 701-290-7222
www.talkingtonangusranch.com**

Fellow Cattlemen

Thank you for your interest in our February 14, 2020 bull sale and for all your past support and patronage. We are excited to offer this year's set of 60 stout, uniform, moderate, docile bulls. We feel our repeat customers will appreciate the fresh sire groups we have to offer this year.

If you have not done business with us before, we think you will appreciate our refreshing, no-nonsense approach to bull development. These bulls are not creep fed and are fed for a 3 lb/day gain after weaning. These bulls are not confined to a dry lot, they are developed in a pasture on the edge of the Badlands, so they get more exercise than most any bulls you will find. We realize it would be easy to put another couple hundred pounds of condition on these bulls if we would creep feed, lock them in a small lot, and push them, but we feel this is not the best way to promote longevity and fertility in our bulls for our customers. We are simply not willing to sacrifice foot quality or the health of the bulls just so they look good on sale day.

All the bulls selling have had an Angus GS genomic profile, which is incorporated into the bulls EPD's to insure the highest level of accuracy possible. Included with the genomic profile is parentage verification, this allows us to know with certainty that all the bulls being offered are sired by who they are supposed to be sired by.

We encourage you to stop by before the sale to evaluate the bulls and their dams. Visitors are always welcome, and we are proud of our cow herd and enjoy every opportunity to go through the cows with other cattlemen. It also provides a chance to learn about our customer's needs and goals, and what we can do to help you meet those goals.

We invite you to follow us on Facebook at Talkington Angus Ranch for all the latest updates leading up to the sale. We will also post all pictures and videos of the bulls as they become available on our website www.talkingtonangusranch.com.

Sincerely,

Shane, Amanda,
Aby, Hadley, and Cade Talkington

VIDEOS

Videos of all the bulls are available at
www.talkingtonangusranch.com

LIABILITY

All persons who attend the sale do so at their own risk and Talkington Angus Ranch assumes no liability, legal or otherwise, for any accidents which may occur.

LUNCH

There will be a complimentary lunch provided on sale day.

SALE LOCATION

We will hold the sale and lunch at our heated shop 2 miles northwest of Belfield. The bulls will be penned there that morning, and will be available for viewing by 10:00 am.

DIRECTIONS

From the junction of I-94 and Highway 85 (Exit 42): ½ mile north to 35th Street, 1 ½ miles west, on the north side of the road.

HEALTH PROGRAM

The bulls have been poured with Cleanup II. They have received Safeguard and the wart vaccine. All bulls will be vaccinated with Fusogard for foot rot and Pregguard 10 prior to delivery.

SEMEN EVALUATION

All bulls will pass a breeding soundness exam performed by Dr. Chance Noyce, Cross County Veterinary, prior to delivery.

AUCTIONEER

Tellan Steffan 701-260-0412

TERMS OF PAYMENT

Buyers will have the option to pay for your bull or bulls in full on sale day or 50% on sale day and the balance at the time of delivery.

GUARANTEE

All bulls sell with a 90-day breeding season guarantee. We will guarantee them for the purchase price minus a preset salvage value of \$1500, or provide a replacement bull, if a suitable bull is available.

VOLUME DISCOUNTS

We will discount purchases of multiple bulls starting at 3% on 3 bulls up to 5% on 5 bulls or more.

DELIVERY

We will start delivering bulls April 1. We offer free delivery within 500 miles.

SIGHT UNSEEN GUARANTEE

If you are unable to attend the sale, but wish to place a bid, call Shane or Amanda, or one of the ringmen. We will also have people available on sale day to handle phone bids. We will handle your bid with honesty and integrity. Your complete satisfaction is guaranteed.

RINGMEN

Werner Flat Top 4136

REG: AAA 18094501

Flat Top is a high accuracy calving ease sire that still delivers adequate growth. The Flat Top progeny are correct in their structure and possess an eye-catching phenotype with added length of body.

SAT Juneau 706

REG: AAA 18926553

Juneau 706 was the high selling bull in our 2018 bull sale. He was one of the most powerful bulls we ever raised and owned ratios of 112 for both weaning and yearling, with an actual weaning weight of 825 lbs. His coming 9-year-old dam has a weaning ratio of 7/104. She is a moderate framed, angular cow with a near perfect udder and very good foot quality.

S A V Raindance 6848

REG: AAA 18578965

Raindance has been one of the heaviest used bulls in the Angus breed since he sold in 2017. This Charlo son is out of the famous 4136 cow who is best known as the dam of Resource. Raindance is a bull that will sire tremendous daughters, as they are extra-long and deep bodied with a broody appearance.

Tehama Tahoe B767

REG: AAA 17817177

Few sires can match Tahoe's combination of calving ease, performance, maternal traits, and carcass merit while improving type and longevity. We feel Tahoe is one of the most complete bulls in the Angus breed, he is a multi-purpose sire that does many things well. Tahoe has built a strong progeny proof with accuracy levels over .90 for birth weight and nearly .90 for weaning weight. He ranks in the top one percent of the breed for both of the Angus breed's Maternal indexes, \$Maternal and \$Weaning. His offspring are moderate, eye appealing, docile, stout, and add dimension and the reports on his daughters in production are that he improves feet and udders.

- Herd bull prospect that has the muscle, thickness, and density combined with a smooth appearance that you do not find in a bull with a -2.4 BW, which ranks him in the top 2% of the breed. He impressively has a spread of -2.4 BW to 120 YW. His feminine Versatile dam is a smaller cow that is angular in her make-up, that did a tremendous job with her first calf and bred back AI. Same pedigree as lot 7 as their dams are full sisters in blood.

- 916 is an absolute stud. You could put on a lot of miles to find a bull that is -2.8 for BW that possesses the powerful hind quarter and muscle shape that this bull does. It is hard to find an Angus bull that carries his muscle into the lower third of his hindquarter like this bull does. What makes him even more exciting is his coming 3-year-old dam by Prosecutor. Not only does she have an outcross pedigree, but she weaned off a 760 lb calf and was a body condition score 6 when she weaned him, and she bred back AI. His great grand dam was a Freightliner x Right Time that stayed in our herd until 12 years of age, and she had the same powerful hip that he does. 916 ranks in the top 2% for BW, top 3% for \$EN, top 1% for \$M, and top 2% for \$W. In fact, if you combine his WW, YW, Milk, and \$EN of \$14, he is the only bull in the breed to do it. On top of that, he is the only bull in the entire Angus breed to rank in the top 3% or better for \$M, \$W, and \$EN, he is truly unique! 3/4 brother to lot 12.

- This bull is simply impressive, he could possibly be the widest bodied bull in the sale, and his EPD profile is just as impressive as he is. His coming 3-year-old dam will leave an impact on our herd for years to come, as she is broody and easy fleshing with a great disposition and she bred back AI, she is off to a great start with her first calf. His Pathfinder grand dam is also the grand dam of Ox Bow Ozzie and she owns a production record of 6/106 for WW and 5/106 for YW. Full brother in blood to lot 14, ¾ brother to lot 6.

- Big, stout bull that will sire pounds. He is a little bigger framed than our average, but he fills it out nicely with a deep body and heavily muscled hind quarter. He will produce some excellent daughters as his Pathfinder dam by Mustang is a favorite of all that see her. She is massive bodied and easy fleshing. 9109 ranks in the top 5% for docility.

MATERNAL BROTHER TO DAM OF LOT 48

- Herd sire candidate here. This bull is massive with extreme depth of rib and an immense hind quarter that he carries deep into the lower 1/3 of his quarter. This might be as good of a Raindance as you will find. His dam is a Pathfinder with a 6/96 BW ratio and still possesses a 6/104 WW ratio. She is a high volume, easy keeping cow. His grand dam stayed until 13 years of age and had a WW ratio of 12/107. 979 also owns the highest docility EPD in the sale ranking in the top 3% of the breed.
