S TALKINGTON T ANGUS RANCH

S T

Cattleman and Friends,

Welcome to the Talkington Angus Ranch February 12, 2021 sale preview and thank you for your interest. It is hard to believe this will be our 10th Production Sale and we owe it all to our customers that we have been able to continue to grow and evolve to the point we are currently at. We are excited about the group of bulls we are offering this year. We have several new sire groups represented that will offer some fresh genetics to our customers while maintaining our commitment to producing maternally oriented cattle that will still produce pounds at weaning and provide end-product value. We also have some of the same groups that have been so popular at past sales such as Tehama Tahoe.

I would also like to take time to thank everyone who made the 3rd Annual Badlands Angus Alliance Sale a resounding success. We are extremely proud of our customers and the outstanding set of bred heifers they assembled to once again make the Badlands Angus Alliance the premier source for quality bred females in Western North Dakota.

If anyone missed the opportunity to take heifers home from the first sale, we have added a second sale this year and going forward. Look for details in the ad in this flier.

Our philosophy is to breed balanced-trait, maternally oriented cattle. We focus on producing fertile, forage efficient, easy fleshing cows with good udders and good feet with outstanding dispositions.

We would love to show you the bulls and their dams. These bulls will be stout, thick, rugged, and sound. Our bulls are fully guaranteed, and freeze branded for permanent identification. The bulls will have an Angus GS genomic profile for increased accuracy of EPD's and even more importantly for parentage verification so you can rest assured every bull you purchase is who he is supposed to be. One of the things we are most proud of is the dispositions on our bulls, we think you would be hard-pressed to find a group that is easier to be around.

We invite you to follow us on Facebook at Talkington Angus Ranch, or watch our website www.talkingtonangusranch.com, for all updates, pictures, and videos as they become available.

Sincerely,

*Shane, Amanda, Abby, Hadley,
and Cade Talkington*

REFERENCE SIRES

COLEMAN BRAVO 6313

REG# 18734838

COLEMAN CHARLO 0256 X CONNEALY ONWARD

CED: +14 | BW: -.8 | WW: 5 | YW: 101 | MILK: 20 | DOC: +30

15 SONS SELL

Bravo can change cattle in one generation. They are moderate and stout, with tons of rib and body. The Bravo progeny are gentle, sound, and athletic. They have good bone and plenty of dimension for a calving ease bull. The hoof shape seems to be exceptionally good so far. His dam has been one of the more influential cows in the Angus breed in recent times.

S A V RAINFALL 6846

REG# 18578963

COLEMAN CHARLO 0256 X S A V 8180 TRAVELER 004

CED: +8 | BW: +.1 | WW: 57 | YW: 111 | MILK: 25 | DOC: +22

8 SONS SELL

Rainfall has become a high reliability calving ease sire and his young daughters in production are establishing him as a cowmaker. The Rainfalls are phenotypically impressive with added muscle shape and remarkable rear leg structure. His sons look like herd bulls and his daughters are elegant. The Rainfalls are also incredible in their foot quality. This maternal brother to Resource and Renown also provides more marbling and end-product value than would be expected by his pedigree.

TEHAMA TAHOE B767

REG# 17817177

TEHAMA UPWARD Y238 X S A V FINAL ANSWER 0035

CED: +10 | BW: 0 | WW: 76 | YW: 129 | MILK: 33 | DOC: +22

11 SONS SELL

Tahoe has earned a reputation as one of the most complete bulls in the Angus breed. He possesses calving ease, performance, and end-product value in a high reliability package. Tahoe's progeny are eye-appealing with dimension, middle, and muscle shape in a moderate package. His daughters in production are proving Tahoe to be an udder improver. The Tahoe progeny were very well received at our 2020 sale, they were the largest sire group and the highest averaging by a significant margin.

COLEMAN NAVIGATOR 614

REG# 18570027

COLE CREEK BLACK CEDAR 46P X COLEMAN JUNEAU 044

CED: +4 | BW: +.8 | WW: 65 | YW: 105 | MILK: 17 | DOC: +17

18 SONS SELL

Navigator is a unique bull with an outcross pedigree. Navigator is a true power bull with a hind quarter that you do not find in many angus bulls. His progeny are moderate framed and wide bodied. His pedigree reads maternal excellence.

HILLTOPS CHARGED UP 44T

REG# 18619182

S A V RECHARGE 3436 X CONNEALY FINAL PRODUCT

CED: +2 | BW: +2.3 | WW: 86 | YW: 149 | MILK: 15 | DOC: +30

15 SONS SELL

Charged Up is a little different bull for us. He pushes the limit a little more than we normally do for performance and frame. He is not extreme for frame though and possesses the maternal qualities we hold most important in our program and is backed by a tremendous cow family. This sire group is loaded with power and performance.

Thanks to the excitement and interest in our previous **Badlands Angus Alliance Bred Female Sales**, we've added another opportunity for our customers to market their females bred by **Best Angus**, **Strommen Ranch** and **Talkington Angus** bulls. **It is an honor and a privilege to work with and for our customers.** Contact us today for more information, or if you are in need of balanced-trait maternally oriented Angus females.
