Replacement Quality
HEIFER CALVES *from our customers*

BUILDING DEMAND FOR YOUR HEIFERS

We are proud of the herds our customers are developing with Strommen Ranch, Talkington Angus and Best Angus genetics and that is why **we strive to help our customers capture additional value for their females** through the Badlands Angus Alliance, where our collective customers have marketed more than 3,800 bred females since 2018. Many of those heifers have commanded a \$200 to \$500 per head premium over other bred heifer sales in the region!

The Badlands Angus Alliance continues to be the **premier sale in Western North Dakota for source and genetic verified Angus replacement females**. It demonstrates the strong demand we've helped build for genetically sourced cattle of maternal pedigree.

The Badlands Angus Alliance Group is excited for the 2nd Annual Replacement Heifer Calf special. This sale will feature multiple groups of reputation heifers that carry the genetics of Talkington, Best and Strommen.

We, along with the staff at Stockmen's Livestock in Dickinson, are excited about this new venture and are committed to making this not only a premier event to showcase our bull customers' replacement heifers, but also provide an opportunity for those looking to acquire high quality genetics with a known maternal background to either expand your herd or procure for a heifer development program.

Heifer calves sold through this sale directly qualify for the 2025 Badlands Angus Bull and Bred Female sale when they are bred back to Talkington, Best or Strommen Ranch Angus calving-ease bulls! This sale is yet another way we are working to add value to our customers' operations.

These heifers will be on site at Stockmen's Livestock Exchange in Dickinson, N.D., presorted for quality, weighed and sold with an accurate weight, checked open and breedable and bangs vaccinated with a full health and mineral program behind them. Buy with confidence from reputable operations with a program and profit-minded genetics behind them for generations.

Contract: **KANE UNRUH • (701) 880-7583**

Contract: **KANYON UNRUH • (701) 891-8251**

Kelly, Lori, and their boys Kane and Kanyon, have developed one of the true reputation herds of cattle in this region. Whether they are selling feeder calves, bred heifers, or heifer calves, their cattle have long been sought after and consistently top the market. The Unruh's buy top end bulls no matter where they are buying and have AI'd their heifers and cows for decades. This is one of the real good cow herds I have the opportunity to work with, they are loaded with capacity and fleshing ability and they bring in a big set of calves every fall. Some of the more recent genetics to heavily influence this herd would be Rainfall, Badlands, Resource, Rainmaker 4404, and Renovation.

These heifers had a full scope of vaccinations both spring and fall, including Vision 7 20/20, Inforce 3, One Shot BVD, Bovi-Shield Gold One Shot, Vision 7 Somnus, Express 5 HS, and 2 doses of pinkeye vaccine. This fall they were dewormed with Valbazen and poured with Clean-Up II. These heifers are bangs vaccinated and preg-checked open and breedable.

BASIN RAINMAKER 4404

BJ MARTIN, DICKINSON, ND

25 ANGUS REPLACEMENT HEIFER CALVES

Contract: **BJ MARTIN • (701) 290-2081**

BJ and Lindsay are first time consignors to the Badlands Angus Alliance. They started their herd just over 4 years ago, purchasing most of the Dave and Nila Meuchals herd in 2020. Meuchals had developed a following for their bred heifers, selling near the top of the Badlands Angus Alliance bred heifer sale a few times. Since starting this herd, BJ has put a lot of work into genetics, implementing an AI program and purchasing Talkington bulls. These heifers would be sired by 3 Talkington bulls, sons of Renovation, Image Maker, and Charged Up. All 3 bulls came out of really good, long-lasting cows.

These heifers have had a full scope of vaccinations both spring and fall including Vision 7, Vista Once, and Express 5 HS, plus poured with Clean-UP II and drenched with Safe-Guard this fall. These heifers will be bangs vaccinated and preg checked open and breedable by Circle C Veterinary Service.

DJ ERICKSON, BEULAH, ND

50 ANGUS REPLACEMENT HEIFER CALVES

Contact: **DJ ERICKSON • (701) 870-7677**

This is a great set of heifers from the DJ Erickson family. DJ has a good eye for the top end bulls and always finds the bulls from our great cow families. Their cow herd is backed by bulls that originated from Reich Angus and in recent years purchased Strommen Ranch sons of Rainfall, Silverado and Stellar. They have a long history of marketing their heavy market topping reputation steers through Stockmen's Livestock.

They have had a full scope of vaccinations both spring and fall including Bovi-Shield Gold One-Shot and Vision 7 Somnus with Dectomax injectable in October. They had Synanthic dewormer and Express 5 and were Bangs vaccinated and preg-checked open and breedable in November.

SR SILVERADO 083

SAV RAINFALL

CHRIS PALMER, ZAP, ND

58 ANGUS REPLACEMENT HEIFER CALVES

Contact: **CHRIS PALMER • 701-870-2048**

We are excited to have this consignment of replacement heifer calves from Chris Palmer. These heifers are all sired by Strommen Ranch sons of Bruin Torque and SR Silverado 083. Chris is very intentional when he buys bulls knowing he wants to market high-end replacement heifers. The mothers to these heifers would have been home raised or purchased from Scott Woroneicki as the premium, top cut from his heifer development program. The brothers to this group topped the market at Stockmen's Livestock when they sold in December. These heifers will be the very top cut of 150 head with nothing held back.

They have had a full scope of vaccinations both spring and fall including Bovi-Shield Gold One Shot and Ultrabac 7, plus Ivermectin pour on and Valcor injectable dewormer in October. These heifers were poured with Ivermectin, were Bangs vaccinated, preg checked open and breedable. Buy with confidence here from good cattlemen and a program behind them.

BRIAN AND LISA DRIESKE, KELDRON, SD

30 ANGUS REPLACEMENT HEIFER CALVES

Contract: **BRIAN DRIESKE 605-374-9690**

Brian and Lisa Drieske have been loyal customers of Strommen Ranch for many years and do a great job selecting bulls for their operation including multiple sons of our resident herd sire Bruin Torque. These end of April-May born heifers will be gentle, productive females, and have the genetics behind them to make a substantial contribution to anyone's cow herd.

They have purchased Strommen Ranch sons of Rainmaker 4404, OCC Wholesome, Raindance, Advance and many sons of Bruin Torque. The Drieske's have an extensive AI program for both their heifers and their cowherd using Comrade, Wolverine, Advance, Converse, Torque and Silverado recently. They have had a full scope of vaccinations both spring and fall including Vision 5 Somnus and Stimulator 5 PMH and poured with Ivermectin. They are Bangs vaccinated and preg-checked open and breedable.

BRUIN TORQUE 5261

BASIN RAINMAKER 4404

TIM, KATHY, AND GARRETT MEYER, RICHARDTON, ND

20 ANGUS REPLACEMENT HEIFER CALVES

Contract: **TIM MEYER • (701) 290-0172**

Contract: **GARRETT MEYER • (701) 290-1273**

The Meyer family will be bringing 20 head of heifer calves to the Badlands Angus Alliance heifer calf sale. For over 30 years, the Meyer's have implemented an extensive AI program not only in their heifers, but also in their mature cow herd. This set of heifers will be sired by sons of Charlo, Rainfall, Roughrider, and Motive. The cow herd behind these heifers is heavily influenced by bulls such as Mustang, Grid Maker, BAR EXT, Predestined, 6I6, Rainfall, and Resource. The Meyer's cowherd is truly impressive to evaluate. Their cows are high-volume, easy fleshing females that wean heavy calves without a lot of extra inputs.

They have had a full scope of vaccinations both spring and fall including Bovi-Shield Gold One Shot, Vision 7 20/20, Vision 7 Somnus, and Endovac Beef. They were de-wormed with Safe-Guard and poured with Clean-Up II. These heifers are bangs vaccinated and preg-checked open and breedable.

ROLFSRUD RANCH, KEENE, ND

120 ANGUS REPLACEMENT HEIFER CALVES

Contact: **TY ROLFSRUD • (701) 421-0162**

The Rolfsrud Ranch is a family operation made up of three families Ty and Chauncey, Cole and Savannah and parents David and Gena. Rolfsrud Ranch has been operating successfully in the Keene ND area for over 100 years. They run about 400 cows usually selling their steers off the cows. They have sold to the same feeders for over 20 years, they obviously have satisfied customers. The Rolfsrud's have been purchasing bulls from Best Angus for 10 years the most recent purchases have been Resource, Rainmaker and Winchester sons. They have also purchased Rainfall and XXP sons from the Strommen Ranch.

Rolfsruds have been keeping their own replacements, but they decided to offer the top cut of their heifers for this sale. The heifers have been given Bovi-shield gold one shot and Vision 7 Somnus with Spur. They will be poured with Clean-Up II and given injectable Dectomax prior to sale day.

Wolverine

SAT Wolverine 916 • Reg #: 19544206

CE	BW	WW	YW	Milk	SC	Claw	Angle	\$M
14	-1.9	68	106	23	-.23	.38	.34	93

Wolverine was our top selling bull in 2020, going to Select Sires. Wolverine progeny are moderate framed with extra rib shape, added muscle, with incredible soundness and structure. In addition to being a calving ease standout, his first daughters in production are easy fleshing, deep ribbed, with excellent udder quality and good feet, while possessing an average weaning ratio of 102 on their first calves. Wolverines Pathfinder dam records a BW ratio of 6/96, a WW ratio of 6/103, and a YW ratio of 5/107. Wolverine has been a top 5 sales bull at Select Sires for 3 years in a row, selling well over 100,000 units of semen. **Contact Talkington Angus Ranch or Select Sires for semen.**

Klondike

Montana Klondike • Reg #: 20412812

CE	BW	WW	YW	Milk	SC	Claw	Angle	\$M
13	-1.9	73	120	21	.44	.40	.35	67

Klondike was our selection of the 2023 Montana Ranch sale. He is stout made with an impressive hip and a real herd sire look in a moderate package. His sire, Logo 8148, is an outcross source of low birth and high growth genetics. His dam Coleman Donna 505, is powerfully built, yet feminine with a picture perfect udder. **Contact Talkington Angus Ranch or Montana Ranch for semen.**

Essential

E&B Essential • Reg #: 20128935

CE	BW	WW	YW	Milk	SC	Claw	Angle	\$M
15	-2.4	67	117	29	.58	.34	.44	88

Essential is a bull we bought with ST Genetics. Essential is moderate in his frame, possesses incredible structure and design, and we appreciate his foot quality, mobility, and disposition. His standout dam is admired for her femininity, structural integrity, and udder quality. She is also the dam of the Accelerated Genetics sire, E&B New Addition, who has been a perennial sales leader and has left beautiful, moderate framed daughters with exceptional udder quality who wean big calves across the US and South America. His progeny are extremely uniform, moderately made with tremendous breed character. He has exceeded our expectations as a sure bet calving ease bull, with a ratio of 95 for birth weight on his first 103 progeny. **Contact Talkington Angus Ranch or ST Genetics for semen.**

December 3, 2025 • Stockmen's West • Dickinson, ND • 12 p.m. MST

75 COMING 2-YEAR-OLD ANGUS BULLS

700 COMMERCIAL BRED HEIFERS FROM OUR CUSTOMERS

The Talkington, Best and Strommen herds are each backed by a similar maternally-oriented, balanced-trait breeding philosophy. We each place heavy emphasis on fertile, efficient, easy fleshing cows, which is why our genetics fit well together for discriminating cattlemen who desire cattle backed by generations of maternal excellence – phenotypically appealing females with good feet, great udders and outstanding docility.

We invite you to join us in Dickinson on **Feb. 4, 2025** for the second annual Badlands Angus Alliance Replacement Heifer Calf Special, featuring 300 replacement-quality heifer calves from our customers and again on Dec. 3, 2025, for the Badlands Angus Alliance Bull & Bred Female Sale featuring elite, source- and genetic-verified bred females from our customers, as well as stout, rugged, coming 2-year-old bulls from our respective programs.

Replacement heifer calves in this sale have built-in marketing advantages when they are bred to Talkington Angus, Strommen Ranch or Best Angus bulls

CALVING-EASE BULLS

FOR YOUR NEXT HEIFER PROJECT!

Winchester

Angus Alliance Winchester 975 - Reg# 16533253

After using Winchester for a season and being thoroughly impressed, we purchased a semen interest in Winchester. We have used him mainly for breeding heifers for the past five years. The calves come easy with excellent vigor. He has a classic pedigree combining maybe the greatest female producer in the history of the Angus breed in N Bar Emulation EXT and Coleman Donna 386, the matriarch of the Coleman program. The daughters are what you would expect. They are attractive wedge-shaped females with strong udder attachments and perfect teat size. His EPD profile has held strong even though he has more of a historic pedigree. His actual performance ratios from use in 7 herds show 102 ratio for yearling and weaning along with 106 for marbling. His progeny demonstrate extra length and excellent rib and capacity. Dispositions have been very good. We have only had one cow that needed to be culled due to temperament after calving. If you are looking for sure thing calving ease and exceptional daughters with a classic pedigree, you might want to give him a try.

Coleman Donna 386 is the dam of Winchester

N Bar Emulation EXT is the sire of Winchester

Box Cross

Best Box Cross 291 - Reg# 17438354

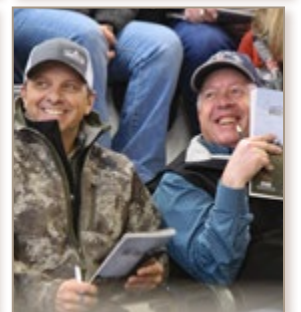

We have never used a bull that has had a more positive impact on our herd than Box Cross's sire LAR Alliance 64L. We have used numerous sons over the years and many of our top cows have been 64L daughters. Box Cross's dam was a Pathfinder donor dam that weaned off 9 calves for us with a 105 weaning ratio. She was my favorite cow at the ranch. We sold Box Cross to Ash Coulee Ranch as a yearling. Scott used him on heifers and cows with great success. Many of his sons were sale toppers and Scott says he still has customers asking if they could get more Box Cross sons. We didn't start using Box Cross until we started to see daughters producing for Ash Coulee. Box Cross calves are small at birth, but they still have excellent calf vigor and they catch up to their higher birth contemporaries by weaning. Box Cross will reduce frame without a big decrease in performance. The daughters are fertile and productive. Box Cross daughters are the smallest cows in our herd, with excellent udder structure with strong attachments and small teats. They are fertile and easy cattle to be around.

Thank You
FOR YOUR CONTINUED SUPPORT!

HEIFER PROJECT SEMEN & SERVICES *available!*

BRUIN TORQUE 5261

AAA #: 18248293 - There are three things Torque does better than any bull we have ever used - he adds body length, improves disposition and he stands on a tremendous foot. He works great on those big-bodied, easy-fleshing females that need spine length and extension up front. He improves disposition and foot quality, all while maintaining maternal function and power. His sons consistently sell at the top of our sales and we truly believe the best is yet to come with the 60+ Torque daughters we've retained in our herd.

SAV EASY STREET 2289

AAA #: 20473600 - We acquired SAV Easy Street 2289 with our friends at Select Sires Argentina & Juan Debernardi-Carne. We thought he was the true highlight calving ease bull of the 2023 Schaff Angus Valley sale.

Easy Street's beautifully uddered President dam has a birth ratio of 2@87. His maternal granddam has a birth ratio of 10@93 and his great granddam has a birth ratio of 10@95. His second and third dams both produced beyond 12 years of age, proving not only their fertility, but their longevity, as well. This makes us very confident in Easy Street's potential to be a long-term calving-ease bull that will leave behind beautiful, productive, long-lasting females.

We expect this gentle-disposition bull to make beautiful females in a calving-ease package.

For semen on these bulls or to book custom AI services, contact us!
