Yellow Cattleman - Welcome to the Talkington Angus Ranch, February 13, 2026 sale preview and thank you for your interest. As we prepare for our 15th annual bull sale, we would like to express our gratitude to all our customers that enable us to continue doing what we love for a living. We are once again excited about the group of bulls we are offering this year. We are thrilled to be offering a combination of bulls that will provide new and different genetics for our customers that will be complimentary to what we have been using in years past, and sire groups that have been offered before, so our customers can continue to put together consistent sire groups. Our offering will be headlined by the second set of bulls out of our resident herdsire, Coleman Big Country 260. His progeny do a great job of adding pounds in a highly maternal package. Another highlight will be the second set of sons we will offer out of the highly proven, powerful cowmaker, SAV Territory 7225. We will have our second set of the highly maternal, calving ease bull Coleman Easy Decision 1539, and our third set of bulls by Coleman Authority 175, which is his best calf crop to date. The new sire groups are headlined by our outcross herdsire, Montana Klondike 2212, a calving ease bull sired by Sitz Logo 8148, and the calving-ease, lead-off bull from our 2021 sale, SAT Bravo 063.

For those of you new to our operation, our herd is backed by a maternally oriented, balanced trait philosophy. We feel the two most important traits that drive profitability in a cow/calf operation are fertility and longevity. Females that breed on time, year after year, are what keeps the commercial cattleman in business. Our cows are bred and managed to be efficient forage converters, easy fleshing, and fertile. The cows must possess good feet, great udders, and superb dispositions.

We would love to give you a tour and show you the bulls and their dams. These bulls are stout, thick, rugged, and sound. We offer a full 1st breeding season guarantee on the bulls and they are freeze branded for permanent identification. The bulls have an Angus GS genomic profile to increase accuracy of EPD's and have been parent verified through DNA so you can be confident every bull is who he is supposed to be.

We invite you to follow us on Facebook at Talkington Angus Ranch or visit our website www.talkingtonangusranch.com, for all updates, pictures, and videos as they become available.

If you are not currently on our mailing list and would like to receive a catalog, please call, text, or email.

Wishing you a Happy New Year! - *Shane, Amanda, Abby, Hadley, and Cade Talkington*
